THE BLUE PLANET

Set along 80 kilometers of indented coastline, in coves and bays are 6 picturesque towns of the Medulin Riviera. Just like on our planet, sea of the highest quality covers three quarters of the Riviera. The azure sea can be seen from any point of this narrow coastal strip, but the true magic begins once you immerse into it, whether only for a swim on the surface or to dive into its depths. The abundance of flora and fauna is yet an additional reason to choose this area for a delightful holiday. Wild, untouched nature on the one hand and comfortable, modern hotels, camps and apartments with a variety of facilities on the other hand, provide ideal conditions for a perfect holiday.

The big blue awaits you

Welcome!

BEACHES

(marked on the map in the middle of the brochure)

The Medulin Riviera is home to some of the most beautiful beaches on the Adriatic that will enchant you with both their beauty and diversity. Here you will find sandy, pebbly and rocky beaches; bare rocks with no shelter from the summer heat or the pleasant shade of the centennial pine trees whose branches bend over the sea, crowded public beaches or almost Robinson Crusoe-like solitude on one of the dozen or so islands of the Medulin archipelago. We are particularly proud to be recognized by the world's most famous travel guides Lonely Planet, which included the secluded beaches of Kamenjak on the list of the most beautiful beaches in the world.

MEDULIN

BEACH BIJECA

The most famous beach in Medulin is certainly Bijeca located in the very town of Medulin. The sandy beach spreads more than 1 km along the coast and has a mild and gradual sea entrance. All this together with a variety of additional facilities makes Bijeca beach the ideal place to spend the entire day, offering a peaceful and relaxing surrounding, but also great fun for the whole family.

BELVEDERE BEACH

Modernly arranged Belvedere beach stretches over 1,050 square meters. It is equipped with showers, stairs for getting into water, free "Wi-Fi" Internet access and a beach lifeguard. The beach is ideal for people looking for relaxation and has 200 comfortable sunbeds and 30 or so double sunbeds for two persons, each equipped with an umbrella.

The surrounding area along the beach has also been arranged, and lighting was set up along the promenade in the entire length of the beach.

ALBA CHIARA BEACH

The pebbly Alba Chiara beach is located next to two other popular Medulin beaches: Bijeca and Belvedere. The beach is well-tended and features sun lounge, beach canoe, pedal boat, jet-ski and bicycle rental. If you need refreshment, you can dip into the water or buy refreshing drinks and ice cream.

PREMANTURA

KAMENJAK

On the southernmost tip of the Istrian Peninsula, not far from the town of Premantura, lies Cape Kamenjak. This is a protected nature reserve encompassed by a 30-kilometer coastline, dotted with numerous lovely, picturesque coves and beaches. Crystal-clear sea and untouched nature attract a large number of tourists in search of peace and tranquility. There are several sandy beaches that are perfect for families with children, but the coastline is mostly rocky with flat rocks ideal for basking in the sun all day long.

BEACH MUNTE

Munte beach is located in the town of Premantura and is one of the few beaches fully adapted to the **visually impaired**. The beach includes a rocky part of the coast, sunbathing area paved with stone slabs and on the southeastern side is a lovely pebbly beach. Easy access into the sea is made possible by stairs that dive into the sea and are protected by a fence.

BANJOLE

BEACH CENTINERA

Centinera beach is situated in the town of Banjole. This beautifully maintained pebbly beach stretches below the centuries-old pine trees, an ideal setting which will surely make every day of your holiday an unforgettable one.

Entertainment programmes with three instructors are offered free of charge to all beach visitors according to the following timetable: Body Relax from 9:30 to 10:00, Sam Song Time from 10:15 to 10:45, and aerobics from 11:00 to 11:30. In the afternoon, we invite you to take part in a specially designed workout programme entitled Sam Song Time from 17:30 to 18:00.

BEACH DAL MAR

The beach is located near the hotel of the same name and stretches over 430 meters of pebbly shore, slightly dipping into the clear blue sea. This is a place where the whole family will enjoy, grown ups can forget their everyday worries while enjoying the sun and the sea, and children can play in the shallow waters.

PJEŠČANA UVALA

PJEŠČANA UVALA BEACH

Pješčana Uvala is a settlement which, just as the name suggests (meaning sandy cove in Croatian), is situated along a beautiful sandy and pebbly beach. The shade of beach umbrellas and dense tree tops make it a perfect place for a longer stay for the whole family. Owing to its crystal-clear sea, it is a favorite spot for children and beginner swimmers. There is also a seaside promenade with numerous catering facilities and a variety of tourist offers.

POMER

This pebbly and rocky beach, providing peace and tranquility for everyone either in the sun or natural shade of pine trees, lies in the protected Medulin Bay, in the town of Pomer. Pomer is a favorite camping destination, which in addition to swimming offers a wide range of watersports for fun.

ŠĆUZA BEACH

Enjoying the sun, along with the fun and games on land and in the water. This pebble beach located near Pomer offers a simple formula for a perfect vacation. The Šćuza Beach is a destination for swimmers of all ages. In addition to the crystal clear sea and a unique view of the bay, here you can find sun beds and umbrellas, various equipment for water sports, as well as refreshment at the nearby beach bar.

WE RECOMMEND:

LOWER KAMENJAK

Swimming and sunbathing in the area of this protected landscape is truly a wonderful experience. This is the southernmost part of the Istrian Peninsula, covering an area of approximately 404 hectares and surrounded by 30 km of coastline dotted with numerous coves and miniature beaches. The world-famous travel guide Lonely Planet includes Kamenjak on the list of the most secluded beaches, ranking Kamenjak as one of the most private spots in the Mediterranean. You can reach Kamenjak by car, bike or boat. An admission fee is charged for all vehicles entering this protected landscape; those arriving by bike or on foot enter free. This applies to visitors entering Kamenjak from June to September. The protected landscape is open from 7 am - 9 pm.

The following islands are ideal for whole-day excursions since they offer catering facilities: Ceja, Levan and Bodulaš. You can reach them by your own boat, rented boat or taxi-boat.

ACTIVITY HOLIDAYS

Mild Mediterranean climate, as well as rich and varied sports infrastructure, have made Medulin a sought after destination for sports preparations of many top athletes. Sandra Perković, currently one of the world's best athletes, trained at the Medulin sports grounds before winning the Olympic gold medal in London.

Medulin's exceptional tourist offer, with a variety of sports and recreational facilities as its focal point, is not only attractive for professional athletes, but is also an ideal place for everyone looking for activity holidays.

Medulin offers a wide range of football fields, tennis courts, athletic track and practice area for many athletic disciplines. Medulin Riviera also boasts a variety of watersports.

There are several sports centers providing equipment rental for diving, sailing and windsurfing, or you can try parasailing, water skiing and jet skiing. Here on the Riviera you can also experience one of the most attractive mountain bike trails in Istria, for lovers of horse riding there are two well-organized stables, or you can relax while practicing playing golf at the golf driving range.

01 CYCLING

The Medulin Riviera is a real challenge for cyclists. You just hop on your bike and start riding and the landscape around you will rotate as on a film reel: picturesque villages, groves, hilltops with breathtaking views, narrow winding paths between the coastline of Kamenjak and the thick macchia that fills the air with the aromatic scents of Mediterranean vegetation.

By riding along the 60 km long **Medulin Riviera** bike trail you can visit all seven villages on the route, as well as see and experience our most attractive natural beauties. Along the entire route, the Medulin Riviera trail has proper marking and the information about it can be found on our website www.medulinriviera.info as well as in the printed map Istra Bike. The main trail includes four shorter circular trails, and you only have to choose whether to take Medulinka, Premanturka, Banjolka or Orhidea and enjoy!

GASTRONOMY

If you leave Istria without tasting its gastronomic delicacies and renowned varieties of wines, then you have made a big mistake.

Must-try seafood specialties include spider crab salad, oysters, seafood risotto or black cuttlefish risotto, noodles with lobster, scampi buzara style or grilled. For the main course try any of the high-quality fish: sea bass, gilt-head sea bream, sole, scorpionfish or dentex. They are equally tasty whether prepared boiled, grilled or oven baked with potatoes. To accompany such dishes we recommend top quality Istrian white wines such as Malvasia, Pinot or Chardonnay. Some of the meat dishes that you simply must try are Istrian prosciutto served with olives, Istrian maneštra, gnocchi or fuži pasta with veal žgvacet or sauce à la wild. For the main course we recommend pork loin ombolo or sausages "Istrian-style" served with sauerkraut as a must. These dishes are paired with top quality Istrian red wines such as Teran, Merlot or Cabernet Sauvignon. For gourmets we also recommend Istrian supa prepared with red wine. You can find a list of restaurants and other catering facilities with their telephone numbers in the yellow pages.

WHAT FOOD TO TRY?

ISTRIAN MANEŠTRA - one of the most traditional dishes of Istrian cuisine. The basic ingredients of this thick soup are potatoes and beans, but by combining other ingredients creative chefs add a distinctive taste and gastronomic touch to their own maneštra. The name and type of maneštra depends on the main ingredient, the most common ones for preparing this specialty are young corn, chickpea, barley, sauerkraut, sour turnip and young fennel. If Istrian prosciutto bone is added, the culinary experience will be even more impressive.

SPIDERCRAB SALAD - seafood specialty that our ancestors loved is a culinary delight which even nowadays is a delicacy for all food aficionados. This large crab, with mild and sweet tasting meat is prepared in many ways, but it is especially tasty when cooked and prepared as spidercrab salad, or as a delicious sauce for risotto and pasta.

GRILLED PILCHARD - oily fish that has for centuries been the staple food of many fishermen families is yet another interesting seafood delicacy of Istria that you simply must try during your stay on the Medulin Riviera. It is most usually prepared in the simplest way - from the fishing net straight to the grill. But, if you have a chance, be sure to taste savory pilchard. This exceptionally tasty fish is nourishing as well because of its valuable ingredients that make it one of the healthiest bites of the Adriatic.

BLACK CUTTLEFISH RISOTTO - the shallow rocky bottom of the warm water along our coast has from the distant past guaranteed a rich catch of cuttlefish, mollusks that have a special position in traditional Istrian cuisine. There are many recipes with cuttlefish as the main ingredient, but we recommend black cuttlefish risotto, simple dish with an irresistible taste, which will surely delight all lovers of fine seafood.

FISH BRODETTO - another typical seafood specialty which was once part of folk cuisine, today is regularly found on the menu of exclusive restaurants along the

Adriatic Coast. It is prepared from a combination of freshly caught fish, and a few crabs or different types of seafood are often added. Almost every restaurateur has his own way of preparing brodetto which he jealously keeps. Brodetto is served with ground cornmeal, polenta, which makes it an irresistible gastronomic delight of the Adriatic.

HOMEMADE PASTA WITH SAUCE - Istrian gastronomy is strongly influenced by Italian cuisine, the best example is the variety of delicious homemade pasta that you can taste on the Riviera. The most famous are fuži, pasutice and tagliatelle that are made from pasta dough, as well as traditional dumplings made of potatoes, commonly known as gnocchi. Such pasta is especially tasty when paired with different homemade sauces, the most traditional among them is the sauce made with tomatoes, onions, seasoning and chicken - žgvacet.

ISTRIAN OLIVE OIL

Discover the intense flavor and smell of top quality Istrian olive oil, discover why some sixty Istrian olive oils are listed in the most prestigious guidebooks Flos olei i L'extravergine.

In fine Istrian olive oil you will surely discover the smell of freshly cut grass, herbs, artichokes, green tomatoes, apples and almonds, but also the noble bitterness characteristic of original olive oil.
